# San Gemini Preservation Studies

San Gemini Preservation Studies is a series of courses, field projects and tours aimed at fostering the preservation of cultural heritage. The program offers students both theoretical knowledge in the classroom and hands-on skills on field projects. The program also includes field trips in central Italy to places of general cultural and historical interest along with visits to sites currently undergoing professional restoration.

The program is interdisciplinary, open to any students interested in conservation and the preservation of cultural heritage.

*May 23 - June 30*
